BEVCO®

10,000 Series

- Are you tired of having to replace your chairs because they don't hold up?
- Do you have people who need more room in their chair? Would they be more productive if they were more comfortable?
- Are your chairs ADA compliant for your larger workers?

BEVCO's 10,000 Series of ergonomic chairs has been designed and tested to address the specific seating requirements of larger workers. Every component of these high capacity chairs has been rigorously tested to assure exceptional strength and years of durability. The entire chair, including the heavy-duty base, seat, tilt mechanism and larger casters has been tested by an independent lab** to reliably handle all the stresses applied by a 500 lb. person. The 4" thick seat, constructed of 3/4" 14 ply hardwood and high density foam, is built for maximum comfort as well as years of reliable use.

**Model 10,000
with optional armrests
and gel arm pads**

Each 10,000 Series chair provides unprecedented comfort and ergonomic adjustability. The easy-to-use ratchet-back system with built-in lumbar support and Free-Float feature provides a personalized fit for outstanding back support. This, along with the rocker tilt control, helps reduce back pain, muscle aches and stress. Easy-to-use pneumatic height adjustment, 360 degree swivel, heavy-duty 28" diameter base, and industrial strength carpet casters are standard on every chair.

Made in the USA, all models of the BEVCO 10,000 Series are backed by a 3-year comprehensive warranty and include a lifetime guarantee on the cylinder. The warranty covers all defects in material and workmanship and is not prorated. All 10,000 Series chairs meet or exceed BIFMA standards and are ADA compliant.

Model	Height Adjustment	Vertical Back	Tilt		Weight (lbs)
			Seat	Back	
10,000	19"-22"	4"	10° Rearward	12° Rearward	59
			7° Rearward	0° Rearward	

Dimensions: Water Fall Seat: 24" Wide x 20" Deep x 4" Thick or
24" Wide x 22" Deep x 4" Thick
Back: 22" Wide x 22" Deep x 4" Thick

Distributed By:

Important Standard Features

- Ergonomic seat with waterfall edge for greater circulation & comfort
- 28" heavy-duty 5-star base provides outstanding stability
- Easy to use pneumatic height adjustment with "lifetime" cylinder guarantee
- Large contoured back (22" Wide x 22" Deep) provides full ergonomic lumbar support
- Free-float back tilt that can be locked into any position
- Internal ratchet system for easy back height adjustment
- Rocker-tilt control for infinite adjustability
- Designed for both office and industrial use

Upholstery

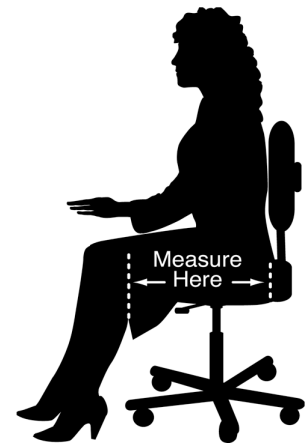

- BIFMA rated Class 1 Olefin fabric resists fading, pilling, punctures and moisture
- Fabrics meet flame retardant standards of California Technical Bulletin #117 and BIFMA F-1-1978
- Available in standard BEVCO colors. Contact BEVCO for special colors and custom fabrics

Options

- **Hard Floor Casters and Carpet Casters** are both designed for heavy use and are 50% larger than standard casters
- **Stationary Mushroom Glides** are also available
- **Two seat sizes for better fit:** 24" Wide x 20" Deep or 24" Wide x 22" Deep
- **Height adjustable ergonomic arms with polyurethane arm pads for maximum durability or gel arm pads for ultimate comfort**

* ANSI: American National Standards Institute, Inc. BIFMA: Business and Institutional Furniture Manufacturers Association. BIFMA standards include safety, durability and structural adequacy evaluations.

** Environmental Screening Test Laboratories, Zeeland, MI

To select correct seat size measure between the points shown on the diagram:

22" or less - Order 24" x 20" seat
Greater than 22" - Order 24" x 22" seat
