

# ARM KIT

For BEVCO Series 5000, 6000, 8000, and 9000

Your Arm Kit includes:

- 2 mounting brackets
- 2 mounting handwheels
- 1 Pair Chair Arms
- 6 ea. Phillips Head Screw w/Lock Washer

You will need a Phillips Head Screwdriver to mount arms to the chair.

1. Turn chair upside down.
2. Locate the 2 circular markings on left and right of the seat control.
3. Place mounting brackets so that slot is parallel to front and back of the seat.
4. Line up the inner holes of brackets with the circular markings.
5. Use screw driver or awl to gently pierce seat cover at each hole on both brackets.
6. Finger tighten all three screws in each bracket and then go back and tool tighten all the screws.
7. Slide arm into bracket on each side. The wider part of the arm pad should face the front of the seat.
8. Hand tighten mounting handwheel to hold arm in place.

Contact BEVCO Customer Service (800) 864-2991 if you have any questions.
