

ASSEMBLY OF ARM SETS ON BEVCO VALUE-LINE SEATING MODELS

You should have the following parts included in the carton:

- a. Right & left arm brackets with arm pads b. 6 – ¼” x 1 ¼” screws

Tools required for assembly: #2 Philips head screw driver.

1. Remove all parts from carton. Check parts against parts list.
2. Turn the chair upside down.
3. Using the six ¼” x 1 ¼” screws, securely attach the arm brackets to the underside of the seat.

(R and L are stamped into the metal of each arm to distinguish Right from Left; Right and Left are determined by a person sitting in the chair.)

We want you to be very happy with this product. If you have any concerns or problems, please contact Bevco customer service at (800) 864-2991.
